

Director Nominee/South- Charles Koehn

I have 27 years of experience in the oil and gas industry and hold a Journeyman Gas Fitter certification. I was a serviceman for 3 years at Birch Hills Gas Co-op and 2 years at South Flagstaff/ Phoenix Gas Co-op. I've also managed an oil trucking facility where I handled trucker orientations, inspections, and audits. I operated a gathering and shipping oil terminal completing sampling, scheduling maintenance, daily/weekly/monthly inspections and reports. Currently, I'm working in the agriculture sector, bringing the same dedication and strong work ethic to farm operations.

I value honesty, accountability, and community involvement. I'm passionate about ensuring transparency and fairness within Phoenix Gas Co-op, and I want to be part of a team of directors that makes informed and fair decisions to keep the Co-op accountable to its members.

I would greatly appreciate your support - vote for me, Charles Koehn, and together we can continue servicing the co-op members with fairness, accountability, and excellence. I appreciate your consideration.

Respectfully,

Charles Koehn
